## Read the following case studies and answer the following questions: Case 1: The Job Application (10)

children, who so far don't know the extent of the family's sadness.

Your former subordinate has come to you for confidential advice. He resigned from your company 2 years ago due to his family problem. He is a recent widower with three children who has no close friends or family in the area. A severe recession has left him jobless for 18 months. His skills are not in demand. Six months ago he started looking outside his field, increasingly willing to take anything. But even minimum wage positions were scarce and did not pay enough for one person to live on, much less four. He is deep in debt and has filed for bankruptcy. He is three months overdue on the rent and has been served with an eviction notice. He has been trying to keep a cheerful, hopeful attitude for the

Now a job he applied for 12 months ago has come up. The salary is higher than any he's ever received and the benefits package would cover his whole family. He was told the choice is between him and one other person, but he has to swear in writing that he has never taken illegal drugs. Trouble is; he has. He used to smoke marijuana, not a lot, but regularly. He has never taken any other illegal drug, and he doesn't use marijuana anymore either. He has asked you whether he should lie on the application or not. What do you say?

Case 2: A metal fabricating company (10)

Woranart worked as a factory manager in a car assembly company for ten years. Last year he resigned from the car company and moved to a metal fabricating company in Lopburi. Woranart was appointed to be the general manager of the new company. The general manger is a "new position" in this company. This company has been successful and after 25 years, employs 250 people in the plant and 150 in the office. In evaluating the company, he sees much duplication: 5 accountants could do the job that 20 now handle. In both office department and production department, the company has over hired. Cutting back would dramatically improve the company's profits. But the company is a small, close-knit community and the employees have long service records. More than 60% of the employees are above 40 years of age. The average salary of this company is relatively high comparing with others in the same area. Since the company has a life time employment policy and the strong community association, the employees know that they will not be asked to leave their jobs even they have non-effective performance. It is also found that the production department and the office do not get along well, due to the conflict of their department managers. Most of middle managers are independent and have long experience in this company. In the past the company did not have the general manager, therefore, the middle managers had to report their work directly to the president. However, after Woranart joined this company, it is still found that they often report their works to the president without informing Woranart. What is your recommend to Woranart?

## Case 3: Poly Private Limit (10)

Poly Private Limited is a small company, which manufactures plastic products such as mugs, buckets, and other household utility products. This company, which is situated in an small village near Hatyai, has typical labor needs. Since quite a few operations including packing of products are done manually, the company employs 100 workers on the shop floor. The company supplies its products to retailers in and around Hatyai. The top-management of this company, which comprises of the members of Sunee's family (this is a family- managed business), decided to implement 5S in the company in 2012.

The company has a bad record in industrial relations since workers in the past have had several problems pertaining to wages and working conditions. The company provides minimal benefit for workers. The workers still work in this company because there is only one company in this village. The workers and production supervisors always have conflict with Kittisak who is HR (Human Resource) manager. Kittisak is also one member of Sunee's family. He graduated from a faculty of Computer Science in a famous university in USA two years ago and immediately joined this company after his graduation. He wants to be a teacher in a computer class in a school. His dream could not come true, since the family wants him to help family's business. Due to his lack of mechanical and manufacturing knowledge, he is appointed to be a HR manager of the family's factory.

Three years ago, Sunee, as a factory manager, tried to introduce 5S program but wes not successful. Now Sunee thinks that with the help of Kittisak, she should be able to re-implement 5S. What should Sunee start?

#### Case 4: Beta Water Purifiers (20)

Patara is a sales representative with Beta Water Purifiers. Patara is a star sales representative with the highest sales turnover record for 5 consecutive months. He is an aggressive and a dynamic sales person with a strong target-orientation. His marketing manager Nukrom is very proud of his accomplishments. Based on his performance appraisal, Patara has been promoted to the rank of Assistant Manager (Marketing). He is now required to supervise the work of 6 sales representatives and to manage sales targets for his area.

After working as an Asst. Marketing Manager, Patara set the targets for the first month and communicated these to the sales representatives in a direct and explicit manner. 4 sales representatives found the targets to be too ambitious but reserved their comments. After the meeting they discussed the issue informally and dispersed. Patara called the fortnightly review meeting to take stock of the situation. He was extremely disappointed to know that all the six representatives were trailing behind in target achievement. He was very blunt in communicating his disappointment and told their team to get their targets by the end of the month. After the meeting, all the six representatives expressed their displeasure with the meeting and found the demand of Patara unreasonable. They commonly perceived him to be a difficult person to deal with. They thought of approaching Nukrom for this. Tarapong and Maneerat, two of the representatives met Nukrom and discussed this with him. Nukrom was a little upset with Patara, but he thought to himself that Patara is very efficient but lacks tact to work with people. He assured the duo that he will speak to Patara in this regard.

Nukrom called Patara for an informal chat and advised him to go a little easy with people. Patara was clearly agitated about this since he took this as a personal affront, as he sensed during this meeting that someone must have complained about his behavior to Nukrom. Instead of going easy with the team, he turned more bitter in his approach. He called a meeting of all the sales representatives, and indirectly communicated his displeasure with the incident. He once again made it clear that the targets were attainable but needed a greater sense of commitment from the group. Obviously the sales representatives did not like this. At the month-end briefing, Patara was absolutely disappointed with the team for having under-achieved on the targets' count. He rebuked them for going slow on their work and told them sternly to adhere to the targets in the next month. Maneerat, one of the sales representatives, objected to highly monthly targets and suggested that the targets be made more reasonable. Patara retorted by saying that the targets were absolutely reasonable. Obviously the team was disheartened with this. They all decided to collectively approach Nukrom this time and seek his intervention. When they met Nukrom to brief him about the situation, Nukrom was sure that he had made a mistake somewhere.

- 4.1) What happened when Patara got promoted to the position of Asst. Manager (Marketing)? Why did this happen?
- 4.2) What should Nukrom do to solve this problem?
- 4.3)If you were entrusted with the responsibility of managing 6 sales representatives & creating an effective sales team, how would you do it?
